Since moving to the United States she has directed and taught at the Arts Center she founded in Washington State - Gail Harker Center for Creative Arts. She has taught Certificate and Diploma Courses in Design and Embroidery to hundreds of students from all parts of North America.

## My Approach to Machine Embroidery

My approach to machine embroidery developed through my own experience teaching design, textile and extended certificate courses to a variety of people over 30 years in the U.K., U.S. and Canada. The needle is similar to a fine pen or pencil - in other words, an art tool. It is possible to create designs on all types of fabrics and papers. The visual effects are exciting and limitless.
